Contained In This Holds Truth and Consequences that are Life / Death Community Affairs Considered Interconnected to Matters of National Security.

This is not in the least bit funny- fake news : false impression : a joke or a hoax.

The seriousness level on the parts of community health and wellness of what has happened to me through my experiences documented as a person living with HIV/Aids since first infected Sept/1999 are most unprofessional and disturbing to realize the interconnectivity underlying causes to the affects onto my case and outwardly expanding across the full national disorders.

In Memorandum this public post appears on Facebook:

It is with such sorrow to learn about the unexpected passing of Dr. Eric Tomomi Shigeno, MD (12/18/75 - 4/10/2020).

Dr. Shigeno is an Infectious Disease Specialist with a long history of working with people living with HIV. After completing his medical training, Dr. Shigeno served as an infectious disease specialist at Kaiser Orange County, a hospitalist at Scripps Mercy Hospital, a primary care physician with Mission Internal Medicine Group, and an HIV specialist with the Desert AIDS Project before joining Borrego Health. Most recently, he worked at a clinic in Riverside County testing patients for COVID-19.

Dr. Shigeno consistently maintained taking a patient-centered approach (Flat Out Deception Lie) to healthcare, empowering his patients to be actively involved (another flat out lie) in achieving optimal health.

So what happened?

Even in death, he was able to save people's lives by donating all available organs and tissue.

The Association of Nurses in AIDS Care Greater Palm Springs Chapter sends our condolences to his family and friends, especially during this difficult time.

PHASES OF VACCINE ALLOCATION AND CURRENT COUNTY VACCINE LEVEL

The phases of vaccine allocation are proposed by the California Department of Public Health and are subject to change.

Persons age 16-64 with serious underlying medical conditions or disabilities are eligible for vaccination. Individuals will need to sign the attestation form to expedite the check-in process.

Albert Einstein - Theory of Relativity

Nov 7, 2017 – In 1905, Albert Einstein determined that the laws of physics are the same for all non-accelerating observers, and that the speed of light in a vacuum was independent of the motion of all observers. This was the theory of special relativity.

Where and to whom in civil society can be sought in strong counsels that these matters of imperatives will be seriously received?

(1) Manifesting a planned agenda of community "health and wellness" put into adaptive relevance

(2) Holds merit of integrity - trusted - change is real and change is permanent.

(3) Adhering to the missions of public community health that you state on the health agency department website pages and especially what can be proven a collective effort to violate my right o States Constitution / Bill of Rights of the 8th Admendment

(4) Actions of those who have made it thier motives to not follow the laws on a wide scale that prevents the very conditions in place of (epic #HugeFail) be taken aside and reprimanded.

Every point of connection of civil society to interface into these matters has been attempted and the results of these attempts documented to

Such effort and documented record reflects - as self evident - a great social engineering conspiracy has been established that has placed into existence blocking remedy by an illegal "information: against the community commonwealth.

Such concepts of creation wholeheartedly inspired and adaptive onto the mention of a "memex device" in the appearance of an 1945 Atlantic Monthly article.

So what exactly have I done wrong in all of this to deserve an unaddressable condition of life dynamics which are mentally abusive by acts of persons out in the hate community holding an unstop to cause harm and interruptions to my life path?

Abstract

Epidemiological data suggest that as many as 0.66% of adult women and 0.17% of adult men in the western world may suffer the subjective experience of being group-stalked (â€˜gang stalkedâ€™) at some point in their lives. Yet the gang stalking experience has been subject to little scientific study. This paper attempts to elicit the core phenomena involved in gang-stalking by allowing them to emerge de novo through the qualitative analysis of accounts of those who describe being gang-stalked.

The current study confirmed the seriousness of the sequelae of the gang-stalking experience. These support the need for further exploration of the phenomenon, for which this study forms a basis.

Department of Justice prevalence study, which used a tight definition of stalking that required the victim to experience fear, found that 6.8% report by three or more people, and were "unable to identify a single offender" or "could not identify an offender who was singularly responsible

When these cases were added to those defined as stalking, the total figure for those reporting an inability to identify a single offender or offender singularly responsible was 12.5% [17], which is similar to that found in the questionnaire study. The gang-stalking phenomenon would thus appear relatively common.

The one study to examine the psychological sequelae of the experience of being gang stalked found that individuals who had been group or gang stalked significantly higher on ratings of depressive symptoms, post-traumatic symptomatology and adverse impact on social and occupational functioning who were individually stalked [5]. The only other published study of gang-stalking samples that we could locate detailed four cases reported by the men who had engaged in extreme violence as a response to the perception that they were the target of gang stalkers [21]. Both Sheridan and James Sarteschi [21] concluded that the subjects of their studies were suffering or had suffered from severe psychological distress in the context of their gang-stalking experiences.

You have been scheduled to appear in court on **January 8, 2021 at 8:30 am** at West Covina Superior Court, 1427 West Covina Parkway, West Covina, CA 91790. Your failure to appear in court may result in the issuance of a warrant for your arrest.
